Self-Help Guide

Enterprise Access Requests:
Complete an Access Request Form (ARF)

Obtain secure access to the University's enterprise systems, including PeopleSoft, Data Warehouse, and reporting systems.

Provisioning and Requests (PAR) manages information access and system security for the University's enterprise systems, including PeopleSoft, Data Warehouse, and reporting systems. We partner with the Student, Financial and Human Resources Data Custodians to respond to your access needs.

Additional Resources

- Approve Access Request Forms and Service Requests Forms self-help guide
- Change of Employment Status (COES)
  - Any change in an employee’s status requires the submission of the COES form. Submission does not affect HR status, only system access.

Instructions and Forms

Step 1 - Determine the Correct Forms

Do you know which Access Request Form to use?

Introduction and Summary
Yes

Get help finding the correct form from the helpline of the system you are trying to access.

To help determine the form you need, you may need to provide information about your job duties, the system you want to access, or the task you want to perform.

- Student Systems & Data help: cctraining@umn.edu
- University Financial Helpline: (612) 624-1617

No

Step 2 - Find and Submit Your Form

Student Systems and Data

Introduction and Summary

Training is required for most access to Student PeopleSoft, as well as other student data systems.

- Find information and register for student systems training. Note: Student Data Inquiry is the required base training for access to any PeopleSoft student information.
- Complete training before submitting an Access Request form.
- Contact Academic Support Resources training at cctraining@umn.edu for questions about required courses.

Instructions

1. Complete any required training for access.
2. Fill out the appropriate Access Request Form(s) from the list below.
   - If the form is filled out by someone other than the person requesting access (the user), the user will be asked to approve via email.
   - The supervisor is asked to approve access via email.
The Key Contact is asked to approve access via email. (Note: it’s possible the Key Contact will contact the supervisor or employee to confirm the level of access necessary).

- A provisioning specialist will notify the user of any missing training requirements.
- A provisioning specialist will complete the request and notify the user via email.
- The supervisor must complete a [Change of Employment Status form](#) for the user if/when approved access is no longer needed due to a change in employment status or job duties.
