Module	Changes
ITG Center General	The name of the IT Coordination Service was changed to IT Service Coordination .

ITG Center Release Notes – June 22, 2014	
Module	Changes
SDLC	<p>SDLCs that have been approved for migration to Production now have a Return to Tester option. This option can be used when it is discovered that an SDLC which has been approved for Production migration needs additional testing or rework. Service Directors and Migrators have access to the button.</p> <p>When an SDLC reaches the In Verification step, the Service Director name now appears in the email message that is generated. Informational text in the message directs users to contact the Service Director if they need assistance in providing the verification.</p> <p>When the migration process is Business Intelligence Maintenance, the Data Update Testing Environment field is no longer required.</p>
